Architecture Network [1]

The **Architecture Network** joins together over 60 cultural organisations from all over Catalonia that organize events related to architecture, urban planning and design. The goal of the Network, which is coordinated by the Architects? Association, is to combine forces for the promotion of activities and initiatives that promote sharing knowledge about architecture.

In collaboration with the Network?s members, the Association publishes the **Architecture Diary**, a website that is an informational tool targeted not only at Catalan architects but also at the general public. The Diary publishes a weekly newsletter, which provides up-to-date information on the most relevant upcoming events.

If you would like to be part of the Architectural Network, or if you have any questions about the Architectural Diary, please contact us:
