Sessions Sert | Amortitza la implantació del BIM ^[1]

A 3D architectural rendering of a building's roof structure, viewed from a high angle looking down into a triangular courtyard. The roof is covered in brown tiles. A complex network of white pipes and conduits runs along the edges of the roof, with some pipes curving upwards. The structure is framed by grey concrete or masonry walls. The courtyard below is a light grey color. The overall design is modern and functional, emphasizing the integration of utility infrastructure into the building's architecture.
